Delft Blue

A Vase for the Princess

Leopold Amsterdam | Kunstmuseum Den Haag

The big ships are back from their long journey to far-off lands,
bearing spices from India and chests full of porcelain from China...
Once everything has been unloaded on to a barge, Lin appears.
He has travelled the whole world as a stowaway, looking for his friend.

He climbs high up the mast and looks about, curiously.
What odd-looking houses! He's never seen any like these before.
奇异小国!* he thinks.
